OHB System AG, in conjunction with the UK Space Agency, cordially invites you to the **BIOMASS** Industry Day.

The occasion will take place at the Satellite Applications Catapult, located on the Harwell Oxford Science and Innovation Campus, opposite the Diamond Light Source Synchrotron, on 11th June 2014. The campus also serves as home to ESA's new facility - ECSAT, the European Centre for Space Applications and Telecommunications and the world famous Rutherford Appleton Laboratory (RAL).

The **BIOMASS** event will appeal to space & ground hardware and software suppliers throughout Europe. Particular emphasis is placed on attracting SME's thus providing a platform on which to establish new contacts and lay the foundations for future partnerships.

The day will be divided into two sessions with the morning opening with welcoming words and introductions at 09:00 followed by presentations on the **BIOMASS** programme, including design and procurement aspects, until lunchtime. A buffet lunch will be available from 13:00 to 14:00. The afternoon will be dedicated to individual discussions and Business to Business (B2B) Meetings, between suppliers and OHB, thus furnishing the ideal opportunity for networking and exploring the opportunities afforded by the **BIOMASS** Project.

### Admission Rules:

Registration is mandatory in order to attend the **BIOMASS** Industry Day. Suppliers must register and declare an interest in a B2B session, by email, by confirming acceptance of this invitation with company name, participant name, role and area(s) of interest (NB: only ONE participant per Company) to Email: [Biomass-industry-day@ohb-system.de](mailto:Biomass-industry-day@ohb-system.de)

**Registration Deadline is 2<sup>nd</sup> June 2014.**

We look forward to welcoming you at the **BIOMASS** Industry Day.

For details on the Biomass Mission please refer to the ESA website on the following link:
